Merry Dancers Gather at Native Daughters Ball

Highly Successful Social Affair Was the Initial Dance Saturday Night

The popularity of the local Native Daughters, both as an order and individually was evinced by the great success of their inital dancing party given Saturday night last at Union Hall. The members out did themselves in their artistic and fanciful decorations. The walls were banked with cornstalks and grotesque jacka'lanterns and mysterious bugs were everywhere in evidence. Behind a rustic fence in the fore ground of which were pumpkins and grape foliage, the orchestra of seven pieces was screened and every musician entered so throughly into the spirit of the evening that the music itself was bewitching. "The Merry Whirl," "The Wedding of The Sunshine and The Rose," "Sweetest Girl in Montery," "Come Back to Dixie" and "Norway" were all captivating numbers and the dancers voiced their appreciation in repeated encores. The orchestra consisted of Messrs Pauli, Gottenberg, Angove, Hansen, Knolle, Jansen and Mrs. E. Pauli, who volunteered their services.

Many out of town visitors were in attendance and the members of Sonoma Parlor saw that every one present had a good time. The floor was ably managed by Chas. Groskopf and Fred Helberg.

During the evening the most delicous refreshments were dispensed and netted the new organization a substantial sum. The Native Daughters are much gratified at the entire financial success of the affair and the benefit Hallo'ween ball will go down in Sonoma's Social Calendar as one of the big events of 1915.

It is estimated that about $150 will be turned into the treasuary when all the returns are in. The grenadine punch brought about $18 and the other refreshments were also liberally patronized. About 300 tickets were disposed of.

The committees of arrangement were: Music, Mrs. Fochetti; printing, Mrs. Von Hacht, Mrs. Fouts and Miss Peterson; decorations, Mesdames Von Hacht and Robin; punch bowl, Mrs. Batchelor and Miss Thomas; ice cream, Misses Hansen and Baccala; coffee and cake, Mesdames Green, Adler, Chase, Erlebach and Misses Eraldi and Mamori.

Notes on the Dance

A pretty compliment to the orchestra was paid by the Native Daughters who arranged a special refreshment table resplendent with Hallowee'n decorations for the musicians at midnight.

The grenadine punch was par excellence and the tall thin glasses with clinking ice and cherry gave just the right festive touch to the evening.

Among the Petaluma guests present were noticed the Misses Fillippini, Gus Lepori and Spencer Peoples. Glen Ellen was also represented and among the popular dancers from there were the Misses Pancrazzi. Mrs. May Erlebach entertained a party of guests that came at her special invitation to to present at this fine affair. From San Francisco there were Mr and Mrs. H. J. Jackson, Mr. and Mrs. G. L. Munson of Rincon Parlor, Mr. and Mrs. W. H. Wessling of Gabrielle Parlor and Mr. and Mrs Cames of Rincon Parlor. From Petaluma Mr. and Mrs. P. Healy and from Los. Angeles, Mrs. J. Giaulet.

PINELLI TALKS OF MEXICO

Mr. S. Pinelli, a wealthy land owner in the State of Sonora, Mexico, who is here on a visit to his brother has been in touch with the Mexican Consul all week seeking to get news from his home in the turbulent country. The mail service is so badly disrupted that it is almost impossible to receive communication from the interior and he fears for the safety of his large property interests and even for the life of the brother, P. Pinelli who stayed in Mina. Colorado Mexico to protect their holdings.

It is not uncommon, says Mr. Pinelli for the mail to be robbed regularly and bands of Indian freebooters descend on property, looting and destroying everything in their path. For a period of time 200 soldiers were dispatched to this section to patrol the property, but now they are denied the soldiers, conditions are intolerable, the crops impossible to raise and the water supply cut of. The railroads are completely paralyzed and coming out here Mr. Pinelli was forced to get off every few miles while repairs were being made.

He declares the country and soil to be wonderfully rich and thinks, if munitions were not allowed to go over the border, order would be more quickly restored.

LAW IS STRICT ON LEGAL NOTICES

The indiscriminate use of amateur journals and near-newspapers for the publication of legal notices is something that should be avoided as the law is strict and any newspaper will not do. Both the City and individuals are jeopardizing the validity of certain notices unless they are published in accordance with the law governing such matters. Read the following sections and instruct your legal adviser to make your publications in the Index Tribune which has the status required and guarantees the legality of all its notices.

Publication and notices, how given or made. Political Code Sec. 4458. "Whenever any publication or notice by publication, or official advertising is required to be given or made by the provisions of this code, the Civil Code, the Code of Civil Procedure, the Penal Code, or by any law of the state, by any officer now existing, or any hereafter created, in this state, or any political subdivision thereof, or by any officer of any court, or officer of a county, city, city and county, or town in this state, such publication, or notice by publication, or official advertising shall be given or made only in a newspaper of general circulation, where such a newspaper is published within the jurisdiction of such official. Where no newspaper of general circulation is published within the jurisdiction of such official, then such publication or notice by publication or official advertising, shall be given or made in a newspaper of general circulation, published nearest thereto.

Newspapers of general circulation defined".

Pol. Code Sec. 4460.

"A newspaper of general circulation is a newspaper published for the dissemination of local or telegraphic news and intelligence of a general character, having a bona fide subscription-list of paying subscribers, and which shall have been established, printed and published at regular intervals, in the state, ceunty, city, city and county, or town, where such publication, notice by publication, or official advertising is given or made, for at least one year preceding the date of such publication, notice or advertisment. A newspaper devoted to the interests, or published for the entertainment or instruction of a particular class, profession, trade, calling, race, or denomination, or for any number of such classes, professions, trades, callings, races or denominations when the avowed purpose is to entertain or instruct such classes, is not a newspaper of general circulation."

A very social afternoon was spent by the Ladies Aid of the M. E. Church at the home of Mrs. J. Dunbar Thursday. About 35 were entertained by the hostess assisted by her vivacious daughter, Miss Sadie. Refreshments and music were pleasant features of the gathering.

ORIGINAL FROLIC BY WHITE SHELL CLUB

Ladies Auxiliary of Poultry Association Give Novel Hallowee'n Party

They set their hearts
On a jolly good time;
Hatched it up
On Hallowee'n.
The White Shell night
Was one delight
On frolic they were keen.
There was not a single frown
But king and queen and clown;
Dull care was banished for the night
These birds of a feather
Had a wondrous time together
Neath the mellow, yellow
Jack 'a lantern light.

A highly successful and original affair was the Hallowee'n party given by the ladies of the White Shell Club last Friday night at Woodmen hall. The decorations were characteristic and the lanterns which enveloped all the lights lent a weird charm to the yellow pumpkins peering out from the greenery and autumn foliage and made the setting most conducive to jollity. About fifty or sixty of our prominent poultry men and their families joined in the festivities which kept up until after midnight.

The music by Hansen and Craib gladdened the dancing contingent present and there were clever musical and monologue numbers by Mr. and Mrs. E. Cliss and all sorts of games and contests The surprise of the evening was the clever and original coronation ceremonies of which Fred Joost was High Priest. Robed in the scarlet insignia of his office Mr. Joost appeared in a doorway and summoned his subjects about him. They were taken through a marching figure after which two pages dressed as clowns came forth with pillows on which rested feathered crowns which were presented to President Dobbel of the Sonoma Poultry Association and to Mrs. Burmeister president of the White Shell Club. They were acclaimed King and Queen of the Hallowee'n Carnival and were crowned amid great jollity. The reading of some witty edicts appropriate to the needs of the poultrymen was no small part of this clever stunt.

The evening concluded with the serving of a most delicious repast. Lonesome cocks began to crow ere their owners began to thing of home sweet home and adieus were said with much regret as this delightful Hallowee'n party came to an end.

CITY FATHERS LOSE ATTORNEY

Regular Session Results in Resignation of Robert A. Poppe and Appointment of Successor.

At the regular November meeting of the City Fathers routine business was transacted including the payment of bills, and the otherwise quiet proceedings were varied by the resignation of Robert A. Poppe who has ably served as city attorney for 15 years, and whose conclusion to terminate his long stewardship of Sonoma's affairs legal, was received by the community with great surprise. Mr. Poppe declares he did not care for the position any longer but would assign no particular reason for the severing of the official ties. He has handled some very intricate matters while in office and took the city through considerable litigation in connection with the building of the city hall. He also prepared the papers in connection with two important bond elections. The office is not highly remunerative and the demands on Mr. Poppe's time were growing with the new activities of the present council. The city dads accepted the resignation without comment and appointed C. C. Cowgill to succeed him as city attorney.

A special license was granted Jep Valente for the evening of November 24th.

Mrs. M. Clewe asked for a permit to put a skylight in an awning of the Clewe building which was granted. City clerk Gottenberg's request for supplies was also granted. The property owners on 2nd street east between Napa and Patton streets were allowed a new street light. It was suggested by Mayor Von Hacht that the ordinance relative to repairs on buildings for less than $50 be repealed so as to allow minimum improvements. Otto Von Geldern reported that the new bridge on Washington street would cost $2.200 according to his plan. It was considered too high. City Marshall Albertson asked for a leave of absence to visit the Fair after the work is finished in connection with collection of taxes. Redemption on the city hall bonds with interest amounting to $637.50 was ordered paid to Mrs. M. Stearns.

The following bills were allowed.

A. Kerner	labor	$28.00
L. V. Emparan	rock	8.80
I. Brusky	rock	150.00
I. Brusky	teaming	36.00

Bold Robbery in Heart of Town

Thieves Break into Two Business Places and Make Way With Loot

Some time after midnight Wednesday, the rear door of John Steiner's place of business was forced open and $32 taken by daring robbers who then went down to Sam Lewis', and after breaking in there secured about $3. A pair of shoes were taken from Lewis but were thrown away in the alley as the burglars made their get away.

Suspicion points to two transients who had been working around town for a day or two and the officers are hot on their trail.

Mr. Steiner says that the robbers struck his place at a lucky time as he never leaves money in the drawer and it just happened on this occasion he left his sack behind.

The work of course is preliminary to the plan now being projected by the University and the city, but it is very essential that filling in and leveling off should be done that the city's appropriation may be utilized on the ornamental side and in the building of suitable walks and approaches. If our public spirited men with spirited teams, will join with the Native Sons in their commendable undertaking much good can be accomplished. Refreshments will be provided by the ladies and the day should be a memorable one.

The committee of Native Sons who will work for the success of this undertaking is comprised of Chas. Groskopf, Wm. Helberg, Geo. McGill, Earl Revie and J. Keiser.

Women and The Ballot

Our new citizens, the women voters are perturbed by the lengthy ballots and frequent elections we have been having since their participation in the franchise. It is a cumbersome method of enthusing them to go to the polls and do their duty. Women are keen on duty and that is why more of them do not come out and vote. They are not sure but that they may do harm by mixing into the unfathomable intricacies of proposed changes in the state laws. Duty is not performed by the mere physical effort of marking and casting a ballot. A womans conception of her political duty is a more sacred, intellegent one. She must know more than that she is supposed to do good by casting her ballot. She must know that she is not going to do any thing or any one harm. This conception has been the salvation of California thus far and has upset the plans of a certain class of sanitary souled politicians who hoped to utilize our new citizens in furthering the political plans they figured would perpetuate their hypocritical regime. Our women voters are growing wiser and broader and more far seeing every day and they refuse to be voted. They must be informed and they want to be.

The Water Problem Let Us Solve It

When we begin to talk about and advocate ground floor development for Sonoma we can not get away from the water problem and it is the one we should be working on the hardest. The necessity of a finely developed water supply and an adequate distributing system is acknowledged by every public spirited citizen, but as in many other things the method by which we shall put Sonoma into the possession and the enjoyment of a good supply has not been determined.

It is gratifying to know that Sonoma is posessed of the finest lot of natural springs and artesian wells in the state. The supply and the quality are all that can be desired, so we are not confronted with the big problem of bringing the supply from a long distance or with the difficulty of clarifying it. The question boils itself down to one of development and financial handling. An enduring improvement of this character in a field like Sonoma should appeal to the advocates of municipal ownership for it is likely that the present system could be taken over at an equitable price and the up building of it together with an adequate system of distribution be a good investment not only for our tax payers of today but for those who will succeed them in the future. Municipal ownership in large cities is apt to be full of hooks and crooks, the hooks lending themselves nicely to the crooks to hang graft on and with the further difficulty of fixing responsibility for discrepancies which may arise in its financial conduct. In the smaller fields of the state however it has worked out well and in Sonoma where we know the personnel of our trustees so intimately and the financial capacity of the citizens whom we may put in office, there is no reason why we should not find in it the solution of the hour. The responsibility of putting good business men in office when we had an important business to handle like a water concern would make our citizens more keenly interested in securing the best public servants possible and the successful business men would be the foremost candidates under such an arrangement.

We need big development and the modern system which other cities boast and provision for the growth that is sure to follow. Constructive work along these lines should give Sonoma enough to think about for some time to come and let us put our best thought force into it.

Let us not make the mistake of being thrown into a state of turmoil and community discord because we cannot all instantly agree as to how it is to be brought about but let us be open to conviction and receptive in our attitude that we may arrive at the solution we are all seeking. In the water campaign we will all be "wets" and under this banner we can be of great service, for this is not a problem of regeneration like the other liquid question but is purely one of civic proceedure.

$100,000 A DAY FOR AUTOMOBILES

With $100,000 a day being generated into speed it does not look much like hard times. A recent dispatch from Sacramento says:

"Hard times and calamity howlers have finished their inning; business is picking up and money is being more freely circulated. Two State officials came forth today with facts to back up their assertions.

"When the State gets a premium of $52,000 on an $1,800,000 bond issue, it dosent look like money is tight," says State Treasurer Friend W. Richardson.

"When Californians are spending an average of $100,000 a day purchasing automobiles, business must be pretty good," adds French of the Motor Vehicle Bureau.

It has been many months since the State received such a healthy premium on a bond issue as on the University of California $1,800,000 recently. French points out that conservative estimates, based on the number of automobile registrations daily for the past 60 days show that people of this State are spending an average of $100,000 a day for the purchase of automobiles.

ST BARBARAS GUILD AT EL VERANO

The regular meeting of St. Barbara's Guild was held on Tuesday at the El Verano home of Mrs. O. C. Benjamin and with the assistance of Mrs. Hamilton the members were most pleasantly entertained. The ladies used golden chrysanthemum and autumn leaves to give a festive appearance to the parlors and a congenial group plied their needles busily on the pretty articles to be disposed of at the coming bazaar while discussing general business matters in connection with their society's welfare. Mrs. Benjamin is a hospitable hostess and the refreshments which rounded out this interestiug afternoon were most delectable.

St. Barbara's Guild is flourishing and the ladies came from different parts of the valley to be in attendance.

After the bazaar, the next regular meeting of the guild will be held at the artistic home of Mrs. L. S. Simmons.

OUR LIVE SUBURBS

VINEBURG

Geo. W. Reed, Sonoma's station agent, was a visitor here on Sunday last. Always welcome, George.

D. Colli is building a barn and feed house on his place. He has resigned his position in the city and hereafter will reside at his pretty home, "Bird Nest Cottage."

Nearly all Vineburg's stately dames and brilliant belles attended the initial dance of the N. D. G. W. at Sonoma and all vote this social affair a grand success.

Of course nearly every morning there is more or less activity at Batto's spur, but last Sunday morning the record was broken when Conductor Johnson and his freight crew switched in on the spur five loaded box cars of grain, feed, oil and merchandise Some may think this is a Hallowee'n josh, but it is the straight goods.

The burg was a very busy place on Sunday last, in fact more so than for some time past. All day long autos, motorcycles and rigs stopped at the Inn to receive slight repairs. Master mechanic Howard Brown and first assistant, Ed. J. Miller attended to their troubles with satisfaction to all.

Frank C. Rhodes, the well-known and popular poultry man of the Hyde tract, transacted business in the bay city this week.

Mrs. Al. Trautvetter of the Hyde tract is at present the guest of friends and relatives in the bay cities.

Judge Mahoney of Larkspur, a gentleman prominent in legal, social and political circles, was the guest of A. W. Lehrke at New Vineburg Inn last Saturday evening and Sunday.

The pretty residence of Mr. and Mrs. Theo. Anthenean is nearing completion and when finished will greatly improve North Vineburg.

Louis Rouquie, our painter is at work on the Forni residence, "Starlight Terrace."
